FEEDBACK FROM M2S USERS

“I just want to say how much March2Success helped me. I heard about it from the cyber recruiters at GoArmy.com. It helped me a lot with the ASVAB test; I got a 97! I would recommend it to anyone planning on taking it. In fact, I have.” **Eric, via email to GoArmy**

FEEDBACK FROM M2S USERS

“Thank you for making this program! I took the ASVAB two weeks ago and received a 92! I am 30 years old, female and haven't been in school for a long time. I was worried that I wouldn't pass because I couldn't remember all that "useless" information they taught us in high school. Thanks to you I can do anything I want in any branch I want. This also boosted my confidence in myself. I know now that I can do it. I know I will do better in college when I go back as well as anything else I choose to do. Thanks so much!” **Kris Dempze, Plover, WI via email to M2S**

MORE FEEDBACK

“March 2 Success is a definite combat multiplier for the recruiting force. It allows many applicants to score 15-20 points higher after only a few weeks on the program. M2S has increased our quality production as well as assisted in our efforts to penetrate high schools,” **LTC Arnold Piper, CDR, New York City Recruiting Battalion**

AND EVEN MORE FEEDBACK

“March2Success allows students the flexibility to focus solely on their weak math or English skills. Many students have indicated that not only have their standardized test scores improved, but so have their grades. I have heard from many New York City and Northern New Jersey school officials who are elated that the course is offered by the Army for free and that Princeton Review assisted in developing it. This course is unequivocally fabulous.” **MAJ Brenda Arzu, Education Support Specialist, New York City Recruiting Battalion**
